Intel® Core™ i7 / Celeron® 3U CompactPCI board

» Outstanding performance
   Intel® Core™ i7 processor, up to 2.53 GHz

» Fast and reliable data storage
   8GB DDR3 memory with ECC, SATA NAND Flash module, CFast

» Comprehensive I/O capabilities
   Gigabit Ethernet, USB, SATA, Serial ports ...
CP3002

Intel® Core™ i7 / Celeron® 3U CompactPCI CPU board

Intel®'s Core™ microarchitecture sets new standards for energy-efficient performance and scalability by use of new technologies such as Intel® Turbo Boost technology and Intel® Smart Cache.

The CP3002 is a highly integrated 3U CompactPCI CPU board based on the Intel® Core™ i7 and Celeron® processor platform combined with the Mobile Intel® QM57 Express Platform Controller Hub. The CP3002 supports the Intel® Core™ i7-610E and Core™ i7-620LE processors with frequencies up to 2.53 GHz for high-performance needs, as well as the ULV processors Core™ i7-660UE and Celeron® U3405 for temperature- and TDP-critical applications. The integrated next generation graphics core offers superior 3D and video performance resulting in a up to doubled graphics performance compared to previous platform designs. Memory demanding applications can make use of up to 8 GB DDR3 SDRAM with Error Checking and Correction (ECC). For onboard data storage the CP3002 offers up to 32 GB on a dedicated SATA Flash module or a HDD/SSD and CFast option on the B8P extension module.

On the system side, the CP3002 supports a PCI 32-bit, 33MHz CompactPCI interface enabling the passive mode feature. When installed in a system master slot, the CompactPCI interface is enabled, whereas the CompactPCI interface will be isolated when installed in a peripheral slot.

Unique Versatility

A variety of communication interfaces like two Gigabit Ethernet ports, six USB 2.0 ports, six SATA interfaces and two serial ports either available at the front as onboard header or via Rear I0 allow the CP3002 to be easily adapted to the individual application requirements.

Highest Data Security

The optional Trusted Platform Module (TPM) provides hardware-based encryption mechanisms to create, seal or store keys, passwords and other important data.

Long-Term Availability

Investing in a new project is always a challenge and risky. Extending the lifetime of an application to the possible maximum is therefore a critical issue to save the development investments. Delivering a stable product based on Intel®'s embedded product line, the CP3002 ensures long-term availability. This eliminates the risk of unplanned design changes and unexpected expensive application modification. While minimizing deployment risks by providing a broad range of software support, the CP3002 eases the process of product integration and maximizes your competitive advantage to meet your time-to-market window.
## Technical Information

### Processor

Intel® Core™ i7 and Celeron® processors (32nm technology):
- Core i7-620LE: 2.0 GHz, LV, 4MB L3 cache (shared instruction/data cache between both cores)
- Core i7-610E: 2.53 GHz, SV, 4MB L3 cache (shared instruction/data cache between both cores)
- Core i7-660UE: 1.33 GHz, ULV, 4MB L3 cache (shared instruction/data cache between both cores)
- Celeron® U3405: 1.07 GHz, ULV, 2MB L3 cache (shared instruction/data cache between both cores)

Please contact Kontron for further information concerning the suitability of other Intel processors for use w. the CP3002.

### Memory

- **System Memory**: Up to 8 GB dual channel DDR3 SDRAM running at 1066 MHz, with ECC, via two SODIMM sockets
- **Flash (uEFI)**: 2x redundant 8 MB SPI flashes, with fail-over functionality
- **EEPROM**: Serial EEPROM (24LC64) 64 Kbit for storing uEFI BIOS settings and serial number
- **SATA NAND Flash**: Up to 32 GB SLC NAND Flash on a dedicated SATA NAND Flash module
  - The SATA NAND Flash option is only available on a 4HP CP3002
- **HDD**: Onboard 2.5" SATA HDD installation via 8HP mezzanine
- **CFast**: Onboard CFast installation via 8HP mezzanine

### Onboard Controller

- **Platform Controller Hub**: Mobile Intel® QM57 Express Chipset:
  - SATA host controller with six ports with RAID 0/1/5/10 support
  - USB 2.0 host interface with up to 14 ports (six ports are used on the CP3002)
  - Two PCI Express x4 or eight PCI Express x1 2.0 ports (only two PCI Express x1 are used)

### VGA

High performance 3D graphics controller integrated in the processor:
- Support for two independent displays
- Supports digital display resolutions up to 2560 x 1600 pixels @ 60Hz
- Supports analog display resolutions up to 2048 x 1536 pixels @ 75Hz
- Dynamic Video Memory Technology (DVMT), up to 352 MB

### Gigabit Ethernet

2x GbE, front or rear (switchable), Intel 82574L Ethernet controller, WOL (Wake-On-LAN) support

### UART

XR16L2750IM-F, dual UART, 16C550-compatible

### Watchdog

FPGA-based, timeout ranging from 125ms to 4096s programmable in 16 steps, IRQ, Reset, dual-stage

### RTC

Integrated in QM57 with 256 Byte CMOS RAM

### Trusted Platform Module (TPM)

Infineon SLB9635TT TPM 1.2 controller, optional

### Front Interfaces 4HP

- **VGA**: 1x VGA-CRT 15-pin D-Sub connector
- **USB**: 2x USB 2.0 ports, 4-pin standard USB connectors
- **Ethernet**: 2x RJ45 with integrated LEDs (ACT, SPEED)
- **LED’s**: 6x LED’s: 4x POST Code or General Purpose, WD, TH

### Front Interfaces 8HP (additional to 4HP)

- **DVI**: 1x 29-pin DVI-D connector
- **USB**: 2x USB 2.0 ports, 4-pin standard USB connectors
- **COM**: 1x 9-pin D-Sub connector, RS-232 signalling
- **Control**: Reset button and HDD LED

### Onboard Interfaces

- **Serial ATA**: 1x onboard standard SATA connector
- **High-Speed I/O Connector**: The high-speed I/O connector to the extension module holds the following signals:
  - PCI Express
  - Two SATA II
  - Two USB 2.0
  - One DisplayPort
  - One COM port RS-232
  - HDA
  - LPC

### I/O Extension Connector

18-pin I/O extension connector holding 1x SATA port for the SATA NAND Flash module

### Rear I/O via J2

The CP3002 supports:
- Two SATA II ports
- Two Gigabit Ethernet ports without LED signals
- Two USB 2.0 ports
- One VGA analog port
- Two COM ports (LVTTL signal level)
- Five GPIOs and Three GPIOs (LVTTL signal level)
- Power management signals
**CompactPCI Bus Interface**
- PICMG 2.0 Rev. 3.0 compatible, 32-bit/33MHz, version with rear I/O via J2
- Universal 5V and 3.3V PCI signalling voltage supported, 7 Req/Gnt & clock lines
- Operating in system slot as system master and in peripheral slot in PCI passive mode

**Supervisory Functions**
- Watchdog, software configurable, 125ms to 4096s in 16 steps, generates IRQ or hardware reset, dual-stage configuration

**Hot Swap**
- Support for all signals to allow peripheral boards to be hot swapped. The individual clocks for each slot and access the backplane ENUM# signal comply with the PICMG 2.1 Hot Swap Specification

**Compliance**
- CompactPCI Core Specification PICMG 2.0 Rev. 3.0
- CompactPCI Hot Swap Specification PICMG 2.1 Rev. 2.0

**General**
- **Dimensions**: 100 x 160mm, 3U, 4HP or 8HP
- **Weight**
  - CP3002 4HP: 340 g
  - CP3002 8HP: 480 g
- **MTBF**
  - CP3002: 250,129 h acc. to MIL-HDBK-217 FN2, Ground Benign, controlled at 30°C
  - CP3002-HDD: 1,901,991 h acc. to MIL-HDBK-217 FN2, Ground Benign, controlled at 30°C

**Software Support**
- AMI uEFI, setup console redirection to serial port (VT100 mode) with CMOS setup access, EFI Shell support, Board configuration via Shell, diskless, keyboardless, videless operation
- LAN boot support
- Board identification number accessible via EEPROM
  (Other OSs may also be used with the CP3002. Please contact Kontron for further information.)

**Power Consumption**
- Core i7-620LE 2.0 GHz and 4GB memory typ. 28W

**Environmental**
- **Operating Temp.**
  - 0°C to 60°C, standard,
  - extended temp. -25°C to 70°C on project request
- **Storage Temp.**
  - -40°C to +85°C (without additional components)
- **Climatic Humidity**
  - 93% RH at 40°C, non-condensing (acc. to IEC 60068-2-7)

**Flash Storage (as separate item, not mounted on the CPU)**

- FLASH-SATA-xGB-CP3002/CP3003
  - SATA NAND Flash module, various sizes available
- CFASTx
  - Industrial grade CFast, various sizes available

**Rear Transition Module**

- CP-RIO3-04
  - 4HP rear I/O module (2x Ethernet, 2x USB, VGA, 2x SATA connectors)
- CP-RIO3-04S
  - 4HP rear I/O module (additional to 4HP COM1/2)
- CP-RIO3-04S
  - 4HP rear I/O module (2x Ethernet, COM, VGA, 2x SATA connectors)

**Software**

- VXW-BSP-CP3002
  - VxWorks 6.9.1 Board Support Package
