

BREAKING THROUGH THE CLOUDS WITH 100 GB PER SECOND!

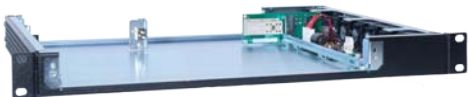

CO14-G4X

Air-Plane[®]
up to 100 GB/s

- **650W** per slot Engineered Cooling
 - 350 front and 300 rear per slot Cooling
- Ultra high performance *Air-Plane* backplane supporting 40Gbps and now **100Gbps!**
- Dual Star, Dual-Dual Star, Full Mesh topologies
- 4 redundant Power Entry Modules accommodates up to 800W per slot
- Excellent airflow distribution
- High Reliability Radial IPMB
- UL Listed and CE Certified

CO1

- Pressurized cooling to accommodate **300W** or **400W** per slot cooling options
- -48V DC input
- Accommodates single ATCA board and RTM
- Independent fan control
- Economical light weight design
- Removable top cover for development or demo applications
- CE and UL Listing (Pending)
